

CONDITIONS OF USE – RUNAWAY BAY SUPER SPORTS CENTRE HOCKEY TURF

5 December 2017

The Sports Super Centre is looking forward to an exciting and busy time ahead of the 2018 Commonwealth Games. All our facilities will be at maximum capacity, with international teams and sports booked for pre games training camps. We will also welcome the over flow from Southport Aquatic Centre due to the closures of the pool ahead of the games.

In consultation with Peter at GC Hockey Centre, the following terms and conditions will apply for clubs, Coaches and Athletes using the Hockey Pitch.

- The western Carpark is the designated parking for Hockey and will be accessible 30minutes prior to the start of the first booking. If Coaches and Athletes happen to turn up earlier access will be through our front reception.
- One pitch water will be done prior to the start of the first training session. The water system is set to the same cycle used at GC Hockey Centre. **If clubs wish to request additional watering a \$40.00 charge will apply.**
- No Athletes are permitted on the field without a designated coach on the field directly supervising. **No Athletes are permitted on the field prior to the designated booking time.**
- SSC have a strict **NO pets allowed** facility, please inform Parents and Athletes that Pets are not to be brought on site. Anyone with Pets on site will be kindly asked to leave the premises.

Post Commonwealth Games the Hockey Pitch will be accessible from the 20th April 2018. Please let me know at your earliest convenience if your club would like to continue with the designated training slot provided by SSC.

6 February 2018

The water system is now an automated timer, this is set up to run 15mins prior to each clubs booking time. This will significantly decrease any delays to the start of training session however I need **clubs support to ensure NO athletes are on the pitch while the water is on.** It will be the **responsibility of the club coaches to keep athletes off of the pitch until the water cycle is completely finished.**

Second change for this season- Due to the prevailing winds coming through in a south easterly direction. We will set up the footbaths and pitch access through the Western side of the pitch. This will help keep parents and athletes dry when the water comes on.
